INDEPENDENT AUDITOR'S REPORT

To the Members of Mankind Pharma Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Mankind Pharma Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates and joint ventures comprising of the consolidated Balance Sheet as at March 31 2022, the consolidated Statement of Profit and Loss including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures as at March 31, 2022, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group, associates and joint ventures in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associates and joint ventures are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements,

whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and joint ventures of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of 21 subsidiaries, whose financial statements include total assets of Rs.1,55,485.89 Lacs as at March 31, 2022, and total revenues of Rs.45,397.04 Lacs and net cash inflows of Rs.11,091.15 Lacs for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated financial statements also include the Group's share of net profit of Rs.1,322.53 Lacs for the year ended March 31, 2022, as considered

in the consolidated financial statements, in respect of 6 associates and 3 joint ventures, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associates, is based solely on the reports of such other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

- (b) The Ind AS financial statements of twelve subsidiary companies, whose financial statements reflect total assets of Rs.1,88,161.93 Lacs as at March 31, 2022, total revenues of Rs.2,07,265.99 Lacs and net cash inflows amounting to Rs.3,095.96 Lacs for the year ended on that date, as considered in the consolidated financial statements have not been jointly audited by us and have been audited either individually by one of the Joint Auditors of the Company or jointly by one of Joint Auditors of the Company with another auditor as joint auditor, whose financial statement, other financial information and auditors report have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of respective joint auditor and the another auditor.

Our opinion above on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, associate companies and joint ventures companies, incorporated in India, as noted in the 'Other Matter' paragraph we give in the "Annexure 1" a statement on the matters specified in paragraphs 3(xxi) of the Order.
2. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, associates and joint ventures, as noted in the 'other matter' paragraph we report, to the extent applicable, that:
 - (a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;

- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2022 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, associate companies and joint ventures, none of the directors of the Group's companies, its associates and joint ventures incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies, associate companies and joint ventures incorporated in India, and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, associates and joint ventures incorporated in India, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Holding Company, its subsidiaries and associates incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, associates and joint ventures, as noted in the 'Other matter' paragraph:
- i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, its associates and joint ventures in its consolidated financial statements – Refer Note 38 (A) to the consolidated financial statements;
 - ii. The Group, its associates and joint ventures did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2022;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, its subsidiaries, associates and joint ventures incorporated in India during the year ended March 31, 2022.
 - iv. a) The respective managements of the Holding Company and its subsidiaries, associates and joint ventures which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such

subsidiaries, associates and joint ventures respectively that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, associates and joint ventures to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or any of such subsidiaries, associate and joint ventures ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The respective managements of the Holding Company and its subsidiaries, associates and joint ventures which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries, associates and joint ventures respectively that, to the best of its knowledge and belief, no funds have been received by the respective Holding Company or any of such subsidiaries, associates and joint ventures from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries, associates and joint ventures shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries, associate and joint ventures which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v) No dividend has been declared or paid during the year by the Holding Company, its subsidiaries, associate and joint venture companies, incorporated in India.

ANNEXURE '2' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF MANKIND PHARMA LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Mankind Pharma Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2022, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group, its associates and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, its associates and joint ventures, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to:

- a) 13 subsidiaries and 2 associates, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries and associates incorporated in India.

- b) 8 subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors, that have been audited either individually by one of the Joint Auditors of the Company or jointly by one of Joint Auditors of the Company with another auditor as joint auditor, of such subsidiaries incorporated in India.

1 CORPORATE INFORMATION

Mankind Pharma Limited ("Mankind" or "the Holding Company" or "the Parent Company") is a public limited company domiciled in India and has its registered office at 208, Okhla Industrial Estate Phase-III, New Delhi 110020, Delhi, India.

The Holding Company together with its subsidiaries (collectively referred as "Group"), associates and joint ventures are principally engaged in the manufacturing and trading of pharmaceutical and Consumer healthcare products and some of entities are engaged in leasing and hospitality business.

These consolidated financial statements were approved for issue in accordance with a resolution of the directors on August 01, 2022.

2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements. These policies have been consistently applied to all the years.

2.01 Basis of preparation of Consolidated Financial Statements

These Consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation and disclosures requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III as amended). These Consolidated financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

The financial statements have been prepared on a historical cost convention, except for the following assets and liabilities:

- i) Certain financial assets and liabilities that is measured at fair value
- ii) Assets held for sale-measured at fair value less cost to sell
- iii) Defined benefit plans-plan assets measured at fair value

2.02 New and amended standards adopted by the Group

The Group has applied the following amendments to Ind AS for the first time for their annual reporting period commencing 1 April 2021:

- i) Extension of COVID-19 related concessions – amendments to Ind AS 116.
- ii) Interest rate benchmark reform – amendments to Ind AS 109, Financial Instruments, Ind AS 107, Financial Instruments: Disclosures, Ind AS 104, Insurance Contracts and Ind AS 116, Leases.
- iii) Conceptual framework for financial reporting under Ind AS issued by ICAI
- iv) Ind AS 103: Business combination
- v) Amendment to Ind AS 105, Ind AS 16 and Ind AS 28

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Further the Group has applied reclassifications consequent to amendments in schedule III as amended by Ministry of corporate affairs on March 24, 2021 to current year and comparative periods.

New amendments issued but not effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022 to amend the following Ind AS which are effective from April 01, 2022 :

(i) Onerous Contracts - Costs of Fulfilling a Contract - Amendments to Ind AS 37

The amendments to Ind AS 37 specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs for example direct labour and materials and an allocation of other costs directly related to contract activities for example an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling that contract. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. The amendments are not expected to have a material impact on the Group.

(ii) Reference to the Conceptual Framework - Amendments to Ind AS 103

The amendments replaced the reference to the ICAI's "Framework for the Preparation and Presentation of Financial Statements under Indian Accounting Standards" with the reference to the "Conceptual Framework for Financial Reporting under Indian Accounting Standard" without significantly changing its requirements.

The amendments also added an exception to the recognition principle of Ind AS 103 Business Combinations to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets or Appendix C, Levies, of Ind AS 37, if incurred separately.

It has also been clarified that the existing guidance in Ind AS 103 for contingent assets would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements under Indian Accounting Standards.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. The amendments are not expected to have a material impact on the Group.

(iii) Property, Plant and Equipment: Proceeds before Intended Use - Amendments to Ind AS 16

The amendments modified paragraph 17(e) of Ind AS 16 to clarify that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. The amendments are not expected to have a material impact on the Group.

(iv) Ind AS 101 First-time Adoption of Indian Accounting Standards - Subsidiary as a first-time adopter

The amendment permits a subsidiary that elects to apply the exemption in paragraph D16(a) of Ind AS 101 to measure cumulative translation differences for all foreign operations in its financial statements using the amounts reported by the parent, based on the parent's date of transition to Ind AS, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. This amendment is also available to an associate or joint venture that uses exemption in paragraph D16(a) of Ind AS 101.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022 but do not apply to the Group as it was first time adopter in an earlier year.

(v) Ind AS 109 Financial Instruments - Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. The amendments are not expected to have a material impact on the Group.

(vi) Ind AS 41 Agriculture - Taxation in fair value measurements

The amendment removes the requirement in paragraph 22 of Ind AS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of Ind AS 41.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. The amendments are not expected to have any impact on the Group as it does not carry on any agricultural activities.

2.03 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

2.04 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries, associates and joint ventures as at 31 March 2022. Control is achieved when the Group is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- ▶ Exposure, or rights to variable returns from its involvement with the investee, and
- ▶ The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangement with the other vote holders of the investee
- ▶ Rights arising from other contractual arrangements
- ▶ The Group's voting rights and potential voting rights
- ▶ The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March, 2022.

2.05 Consolidation Procedure :

(A) Subsidiaries:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS - 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

When the proportion of the equity held by non-controlling interests changes, the Group adjusts the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interests in the subsidiary. The Group recognises directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the owners of the parent.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- (i) Derecognises the assets (including goodwill) and liabilities of the subsidiary
- (ii) Derecognises the carrying amount of any non-controlling interests
- (iii) Derecognises the cumulative translation differences recorded in equity
- (iv) Recognises the fair value of the consideration received
- (v) Recognises the fair value of any investment retained
- (vi) Recognises any surplus or deficit in profit or loss
- (vii) Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

(B) Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement, have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If Group's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment less cost to sell is recognised in profit or loss.

The Group discontinues the use of equity method from the date the investment is classified as held for sale in accordance with Ind AS 105 - Non-current Assets Held for Sale and Discontinued Operations and measures the interest in associate and joint venture held for sale at the lower of its carrying amount and fair value less cost to sell.

3 Significant accounting policies

3.01 Business combination and goodwill

Business combinations other than those under common control transactions are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. In respect to the business combination for acquisition of subsidiary, the Group has opted to measure the non-controlling interests in the acquiree at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated as mentioned hereinafter

- (i) Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 "Income Tax" and Ind AS 19 "Employee Benefits" respectively.
- (ii) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- (iii) Liabilities or equity instruments related to share based payment arrangements of the acquiree or share - based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 "Share-based Payments" at the acquisition date.
- (iv) Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 "Non-current Assets Held for Sale" and Discontinued Operations are measured in accordance with that standard.
- (v) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

3.02 Business Combinations - common control transactions

Business Combinations involving entities or businesses in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and where that control is not transitory is accounted using the pooling of interests method as enumerated below:

- (i) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- (ii) No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies
- (iii) The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- (iv) The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with corresponding balance appearing in the financial statements of the transferee or is adjusted against capital reserve.
- (v) The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.
- (vi) The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserves.

3.03 Property, plant and equipment

Property, Plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of input tax credit availed wherever applicable.

Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Subsequent costs are included in asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Group and the cost of item can be measured reliably.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

Capital work- In- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment is calculated on pro rata basis on straight-line method using the useful lives of the assets estimated by management. The useful life is as follows:

Assets	Useful life (In years)
Building	30 and 60
Plant and Equipment	10 - 15
Furniture and Fixtures	10
Vehicles	8 and 10
Office Equipment	5
Mobile Phones	2
Mobile Tablets	1
Computers	3
Servers and Networks	6

The useful lives have been determined based on technical evaluation done by the management's expert. In certain assets such as plant and machineries, mobile phones and mobile tablets useful lives are lower than those specified by schedule II to the Companies Act 2013 and are depreciated over the estimated useful lives of 10 years, 2 years and 1 year respectively, in order to reflect the actual usage of assets. The residual values are not more than 5% of the original cost of the assets. The asset's residual values and useful lives are reviewed, and adjusted if appropriate.

Lease hold improvements are depreciated on straight line basis over shorter of the asset's useful life and their initial agreement period.

3.04 Investment Properties

Property that is held for long term rental yields or for capital appreciation or for both, and that is not occupied by the Group, is classified as Investment property. Investment property is measured initially at its cost, including related transaction cost and where applicable borrowing costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Subsequent expenditure is capitalized to assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. When significant parts of investment property are required to be replaced at intervals, the Group depreciates them separately based on their respective useful lives. All other repair and maintenance cost are expensed when incurred.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an external independent valuer applying a valuation model as per Ind AS 113 "Fair value measurement".

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in Statement of Profit and Loss in the period of derecognition.

Investment properties are depreciated using straight line method over their estimated useful life i.e 30 years.

Transfer of property from investment property to the property, plant and equipment is made when the property is no longer held for long term rental yields or for capital appreciation or both at carrying amount of the property transferred.

3.05 Intangible assets

Separately acquired intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Cost of intangible assets acquired in business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalized development cost, are not capitalized and the related expenditure is reflected in statement of Profit and Loss in the period in which the expenditure is incurred. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from disposal of the intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets are disposed off.

Intangible assets with finite useful life are amortized on a straight line basis over their estimated useful life as under

Assets	Useful life (In years)
Computer Softwares	3
Trademarks & copyrights	2-15
Patents	6
Technical know-how	5-7
Non-compete fees	5

Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- Its intention to complete the asset;
- Its ability to use or sale the asset;
- How the asset will generate future economic benefits;
- The availability of adequate resources to complete the development and to use or sale the asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on straight line basis over the estimated useful life. During the period of development, the asset is tested for impairment annually.

3.06 Impairment of non- financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five to eight years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the 8th year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Group operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at March 31 and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods. Intangible assets with indefinite useful lives are tested for impairment annually as at March 31 at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

3.07 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets

The Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortised cost

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Initial recognition and measurement

With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient and are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 'Revenue from contracts with customers'.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in following categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- a) **Business Model Test** : The objective is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes) and;
- b) **Cash flow characteristics test**: The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortization is included in other income in Statement of profit and loss. The losses arising from impairment are recognized in the Statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- Business Model Test** : The objective of financial instrument is achieved by both collecting contractual cash flows and selling the financial assets; and
- Cash flow characteristics test**: The contractual terms of the Debt Instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI), except for the recognition of interest income, impairment gains or losses and foreign exchange gains or losses which are recognized in statement of profit and loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial assets designated at fair value through OCI (equity Instruments)

Upon initial recognition, the Group can elect to classify Irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity Instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Embedded Derivatives

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
 - (a) the Group has transferred substantially all the risks and rewards of the asset, or
 - (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the group could be required to repay.

Impairment of financial assets

In accordance with IND AS 109, the Group applies expected credit losses(ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortized cost;
- Financial assets measured at fair value through other comprehensive Income(FVTOCI);

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Group follows "simplified approach" for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables;
- All lease receivables resulting from the transactions within the scope of Ind AS 116 -Leases

Under the simplified approach, the Group does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as Income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for various financial Instruments is described below:

(a) **Financial assets measured as at amortised cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the group does not reduce Impairment allowance from the gross carrying amount.

(b) **Loan commitments and financial guarantee contracts:** ECL is presented as a provision in the balance sheet, i.e. as a liability.

(c) **Debt instruments measured at FVTOCI:** For debt instruments measured at FVTOCI, the expected credit losses do not reduce the carrying amount in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognised in other comprehensive income as the accumulated Impairment amount.

(II) Financial liabilities:

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group financial liabilities include loans and borrowings, trade payables, trade deposits, retention money, liabilities towards services, sales incentive and other payables.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- (i) Financial liabilities at fair value through profit or loss
- (ii) Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationship as defined by Ind AS 109. The separated embedded derivative are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. the Group has not designated any financial liability as at fair value through profit and loss.

Financial liabilities at amortised cost (Loans and borrowings)

After initial recognition, interest-bearing borrowings are subsequently measured at amortized cost using the Effective Interest rate method. Gains and losses are recognized in profit or loss when the liabilities are derecognised as well as through the Effective interest rate amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective interest rate. The Effective interest rate amortization is included as finance costs in the statement of profit and loss.

Trade Payables

These amounts represents liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using Effective interest rate method.

Financial guarantee contracts

Financial guarantee contracts, issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of IND AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets/ financial liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

3.08 Derivative financial Instruments and hedge accounting

Initial recognition and subsequent measurement

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under Ind AS 109 are recognised in the statement of profit and loss. Commodity contracts that are entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the Group's expected purchase, sale or usage requirements are held at cost.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- (i) Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment
- (ii) Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment
- (iii) Hedges of a net investment in a foreign operation

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

(i) Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss as finance costs. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss as finance costs.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying value is amortised through profit or loss over the remaining term of the hedge using the EIR method. EIR amortization may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in profit and loss.

(II) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

The ineffective portion relating to foreign currency contracts is recognised in finance costs and the ineffective portion relating to commodity contracts is recognised in other income or expenses.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

3.09 Inventories

a) Basis of valuation:

Inventories are valued at lower of cost and net realizable value after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis.

b) Method of Valuation:

- i) Cost of raw materials has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- ii) Cost of finished goods and work-in-progress includes direct labour and an appropriate share of fixed and variable production overheads and excise duty as applicable. Fixed production overheads are allocated on the basis of normal capacity of production facilities. Cost is determined on moving weighted average basis.
- iii) Cost of traded goods has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- iv) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.
- v) Development rights represent actual amount paid under agreement towards purchase of land/development rights for acquiring irrevocable and exclusive licenses/development rights in identified land or constructed properties valued at cost and net realizable value, whichever is lower.

3.10 Non-current assets held for sale and discontinued operations

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Any expected loss is recognized immediately in the statement of profit and loss.

The criteria for held for sale classification is regarded as met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold. The Group treats sale of the asset to be highly probable when:

- i) The appropriate level of management is committed to a plan to sell the asset
- ii) An active programme to locate a buyer and complete the plan has been initiated (if applicable)
- iii) The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- iv) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- v) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

The criteria for held for sale classification is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition and the assets must have actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to the plan to sell these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized. Assets and liabilities classified as held for sale are presented separately as current items in the balance sheet.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- i) Represents a separate major line of business or geographical area of operations,
- ii) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations or
- iii) Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

3.11 Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

a) Current Income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries, joint ventures and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

b) Deferred Tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, joint ventures and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, joint ventures and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

3.12 Revenue from contract with customers

The Group manufactures/ trades and sells a range of pharmaceutical and consumer healthcare products. Revenue from contracts with customers involving sale of these products is recognized at a point in time when control of the product has been transferred, and there are no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products are shipped to specific location and control has been transferred to the customers. The Group has objective evidence that all criterion for acceptance has been satisfied.

(a) Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations.

The Group considers, whether there are other promises in the contract in which there are separate performance obligations, to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Group allocates a portion of the transaction price to goods based on its relative standalone prices and also considers the following:-

(i) Variable consideration

The Group recognizes revenue from the sale of goods measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

(ii) Sales Return

The Group accounts for sales returns accrual by recording an allowance for sales returns concurrent with the recognition of revenue at the time of a product sale. This allowance is based on the Group's estimate of expected sales returns. With respect to established products, the Group considers its historical experience of sales returns, levels of inventory in the distribution channel, estimated shelf life, product discontinuances, price changes of competitive products, and the introduction of competitive new products, to the extent each of these factors impact the Group's business and markets. With respect to new products introduced by the Group, such products have historically been either extensions of an existing line of product where the Group has historical experience or in therapeutic categories where established products exist and are sold either by the Group or the Group's competitors.

(iii) Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.

(iv) Schemes

The Group operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as credit notes, reimbursement, investments etc. Revenue from contract with customer is presented deducting cost of all these schemes.

(b) Sale of services

Revenues from services are recognised as and when services are rendered and on the basis of contractual terms with the parties. The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer. In respect of these services, payment is generally due upon completion of services.

(c) Revenue from real estate projects

Revenue from constructed properties for all projects is recognized in accordance with the Ind AS 115 "Revenue from contracts with customers" percentage of completion method and on the percentage of actual project costs incurred thereon to total estimated project cost, provided the conditions specified in Guidance Note are satisfied.

(d) Other Operating Revenues

(i) Rental Income

Rental Income arising from operating leases on investment properties is accounted for on a straight - line basis over the lease terms and is included in other income in the statement of profit or loss due to its non-operating nature.

(ii) Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

(iii) Export benefit

Revenue from export benefits arising from Duty entitlement pass book (DEPB scheme), duty drawback scheme, merchandise export incentive scheme are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable.

(e) Contract balances

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. A receivable represents the Group's right to an amount of consideration that is unconditional.

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (Financial Instruments – Initial recognition and subsequent measurement).

3.13 Retirement and other employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

a) Gratuity

The Group has a defined benefit plan (the "Gratuity Plan"). The Gratuity Plan provides a lump sum payment to employees who have completed four years and two forty days or more of service at retirement, disability or termination of employment, being an amount based on the respective employee's last drawn salary and the number of years of employment with the Group.

The Gratuity Plan, which is defined benefit plan, is either unfunded, funded or managed by Mankind Pharma (P) Limited Employees Group Gratuity Trust, Magnet Labs Private Limited Employees Group Gratuity Cum Life Assurance Scheme, Lifestar Pharma Private Limited Employees Group Gratuity Cum Life Assurance Scheme, Relax Pharmaceuticals Private Limited Employees Gratuity Trust Fund, Pack Innovation (P) Ltd Emp Gratuity Trust Fund, Copmed Pharmaceuticals (P) Ltd Employee Gratuity Trust Fund, Mediforce Healthcare Private Limited Employees Group Gratuity Trust fund and Pharma Force Lab Employees Gratuity Trust ("the trust") with its investments. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Group contributes to the Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements
- b) Net Interest expense or Income

Remeasurements, comprising of actuarial gains and losses, the effect of the asset celling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income and are never reclassified to statement of profit and loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

b) Provident fund

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable through provident fund scheme as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excesses recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

c) Other employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date on the basis of actuarial valuation.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

3.14 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group's lease asset classes primarily comprise of lease for land and building. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the unexpired period of respective leases ranging from 33-99 years.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as a lessor

Leases for which the Group is a lessor is classified as finance or operating lease. Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

3.15 Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

3.16 Segment reporting :

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of directors monitors the operating results of all product segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the financial statements.

The operating segments have been identified on the basis of the nature of products/services. Further:

- 1 Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.
- 2 Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Group as a whole and not allocable to segments are included under unallocable expenditure.
- 3 Income which relates to the Group as a whole and not allocable to segments is included in unallocable income.
- 4 Segment results include margins on inter-segment sales which are reduced in arriving at the profit before tax of the Group.
- 5 Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.
- 6 Segment revenue resulting from transactions with other business segments is accounted on the basis of transfer price agreed between the segments. Such transfer prices are either determined to yield a desired margin or agreed on a negotiated business.

3.17 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity holders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity holders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

3.18 Borrowing Costs

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

3.19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposit held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet and book overdrafts are shown within current financial liabilities in the balance sheet.

3.20 Foreign currency translation

(I) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Group's financial statements are presented in Indian rupee (INR) which is also the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rate prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are generally recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(III) Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

Group Companies

On consolidation, the results and financial position of foreign operations that have a functional currency different from the presentation currency (INR) are translated to the presentation currency (INR) in the following manner:

- a) Assets and liabilities are translated at the rate of exchange prevailing at the reporting date
- b) Their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions
- c) All resulting exchange differences arising on translation of financial statement of foreign operations for consolidation are recognised in other comprehensive income.
- d) On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in statement of profit or loss.
- e) Any Goodwill arising on the acquisition/business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.
- f) Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

3.21 Provisions and Contingent Liabilities

Provisions

A provision is recognized when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Sales Return

Provisions for sales returns is determined based on the historical percentage of sales return for the same types of goods for which the provision is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the provision for sales return to be accrued. It is very unlikely that actual sales return will exactly match the historical percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

3.22 Dividend Distributions

The Group recognizes a liability to make the payment of dividend to owners of equity, when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.23 Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.24 Significant accounting judgments, estimates and assumptions

The preparation of the Consolidated financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these judgments, assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(i) Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

a) Leases

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

(ii) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

a) Taxes

Uncertainties exist with respect to the interpretation of tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

b) Gratuity benefit

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for India. Future salary increases and pension increases are based on expected future inflation rates for India. Further details about the assumptions used, including a sensitivity analysis, are given in Note 40.

c) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

e) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's CGU's fair value less cost of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are estimated based on past trend and discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

f) Provision for sales return

Provisions for sales returns is determined based on the historical percentage of sales return for the same types of goods for which the provision is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the provision for sales return to be accrued. It is very unlikely that actual sales return will exactly match the historical percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

g) Provision for expected credit losses (ECL) of trade receivables and contract assets

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Note 15.

h) Property, Plant and Equipment

Property, Plant and Equipment represents significant portion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of assets expected useful life and expected value at the end of its useful life. The useful life and residual value of Group's assets are determined by management at the time asset is acquired and reviewed periodically including at the end of each year. The useful life is based on historical experience with similar assets, in anticipation of future events, which may have impact on their life such as change in technology.

Mankind Pharma Limited
Notes forming part of the consolidated financial statements for the year ended March 31, 2022
All amounts are in INR lacs unless otherwise stated

Total	13,926.10	8,025.87	5,071.93	10,137.72	37,161.62

Note :

i. During the year ended March 31, 2022, additions to plant and equipment includes INR 553.99 lacs (March 31, 2021 : INR 427.54 lacs) on account of government assistance in the form of the duty benefit availed under Export Promotion Capital Goods (EPCG) Scheme on import of plant and equipment. Closing balance of Capital work-in-progress as at March 31, 2022 include INR 1388.27 lacs (as at March 31, 2021 : INR 856.59 lacs) for this Benefit.

ii. Capital work-in-progress as at March 31, 2022 includes assets under construction at various plants, head office and production lines which are pending installation. There are no projects which have either exceeded their budget or whose timelines have been deferred.

iii. The Group has no commitments for the acquisition of property, plant and equipment has been provided in note 38B.

iv. The Group undisputedly possesses the title deeds for all immovable properties held by the Group, presented under 'Freehold land and Buildings' in the above note.

e) Fair value of Investment property	As at March 31, 2022 557.89	As at March 31, 2021 622.89

Note :

Investment property represents, land and building under construction at District - Tehri Garhwal amounting to INR 537.86 lacs (March 31, 2021: INR 545.78 lacs) held to earn rentals and capital appreciation, and includes land being a premise in Meerut, Uttar Pradesh, held for capital appreciation purpose amounting to INR 4.57 lacs (March 31, 2021: 4.57 lacs).

Fair Value Hierarchy

The above fair valuation are based on valuations performed by an accredited Independent valuer, who is specialised in valuing such type of investment property.

The Group has no restrictions on the realisability of its investment property and no contractual obligation to purchase, construct or develop or for repair & maintenance.

Description of Valuation Technique used:

The Group obtains independent valuations of its investment properties as at the year end. The fair value of the investment properties have been derived using the Direct Comparison Method. The direct comparison approach involves a comparison of the investment properties to similar properties that have actually been sold in arms-length distance from investment properties or are offered for sale in the same region. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market, and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This approach leads to a reasonable estimation of the prevailing price. Given that the comparable instances are located in close proximity to the investment properties; these instances have been assessed for their locational comparative advantages and disadvantages while arriving at the indicative price assessment for investment properties.

These valuations are based on valuations performed by Akhil Kumar and Associates, an accredited independent valuer. Akhil Kumar and Associates is a specialist in valuing these types of investment properties and is a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. All resulting fair value estimates for investment property are included in level 3.

Sensitivity analysis of the investment property fair value assumptions

Further the Group has performed sensitivity analysis on the assumptions used by the valuer and ensured that the valuation of investment property is appropriate. The Group undisputedly possesses the title deeds for all properties held by the Group, presented under 'Freehold land and Buildings' in the above note.

c. Intangible assets under development as at March 31, 2022 and March 31, 2021 includes softwares being developed internally.

d. Impairment of Goodwill and other intangible assets

The Group has performed annual impairment test for Goodwill and impairment test of other intangible assets where there are indicators of impairment for year ended 31 March 2022 and 31 March 2021, to ascertain the recoverable amount of CGU to which such Goodwill pertains. The Group has allocated goodwill and other intangible assets wherever indicators exist to its respective Cash Generating Unit i.e. Pharmaceutical and healthcare products, Real estate and hospitality and performed impairment test to ascertain the recoverable amount. Goodwill relating to pharmaceutical CGU amounts to INR 1,381.10 lacs and relating to real estate CGU amounts to INR 663.12 lacs. The Group considers the relationship between its market capitalisation and its book value, among other factors, when reviewing for indicators of impairment. The recoverable amount for pharmaceutical CGU is determined based on value in use calculation. These calculations uses management assumptions and pre tax cash flow projections based on financial budgets approved by management covering a 5 to 7 years period. Cash flow projection beyond 5 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which CGU operates.

The Group has allocated goodwill and other intangible assets wherever indicators exist to its respective Cash Generating Unit i.e. Pharmaceutical and healthcare products, Real estate and hospitality and performed impairment test to ascertain the recoverable amount. The recoverable amount is determined either based on value in use calculation or net selling price.

Assumption relating to Pharma CGU		March 31, 2022	March 31, 2021	Approach used in determining value
Weighted average Cost of capital % (WACC) before tax (discount rate)		13.00-15.37%	14.00-15.00%	It has been determined basis risk free rate of return adjusted for equity risk premium.
Long Term Growth Rate		4%	4%	Long term growth rate has been taken basis financial budgets and projections approved by management which is in line with industry growth rate

Assumptions relating to real estate and hospitality CGU

The Group uses the Direct Comparison Method in case of hospitality and real estate business. The direct comparison approach involves a comparison of the properties to similar properties that have actually been sold in arms-length distance from properties or are offered for sale in the same region. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market, and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This approach leads to a reasonable estimation of the prevailing price. Given that the comparable instances are located in close proximity to the properties; these instances have been assessed for their locational comparative advantages and disadvantages while arriving at the indicative price assessment for properties.

The fair value has been determined by Akhil Kumar and Associates, Government approved valuer. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates are included in level 3.

Management determined budgeted gross margin based on past performance and its expectations of market development. The weighted average growth rates used are consistent with the forecasts included in industry reports. The calculations performed indicate that there is impairment of investments in some investments in few pharma and pharma packing investments. Management has performed a sensitivity analysis with respect to changes in assumptions for assessment of value-in-use of investments. Based on this analysis, management believes that change in any of above assumption would not cause any material possible change in carrying value of unit's CGU over and above its recoverable amount, other than those already accounted as at March 31, 2022 and adequate headroom is available to factor sensitivities in assumptions used.

Sensitivity analysis of assumptions

Further the Group has performed sensitivity analysis on the assumptions used by the valuer and ensured that the valuation is appropriate and appropriate accrual has been made for provision of impairment wherever considered necessary.

7 Right-of-use assets

- a) This note provide information for leases where the Group is a lessee. The Group leases various offices, warehouse and has taken Land on long term lease from government authorities ranging from 66 to 99 years. The leases for offices and warehouses are typically for 5 to 6 years with mutually exercisable extension option at the end of term.

	Leasehold Land	Leasehold Building	Total
Gross carrying value:			
Balance as at 01 April 2020	4,951.69	446.43	5,398.12
Additions	30.06	348.45	378.51

Exchange differences	-	0.25	0.25
Balance as at 31 March 2022	201.46	427.50	628.96
Net carrying value			
Balance as at 31 March 2021	4,855.55	580.62	5,436.17
Balance as at 31 March 2022	6,293.03	442.68	6,735.71

- b) The following is the carrying value of lease liability and movement thereof during the year ended March 31, 2022:

Particulars	(INR in lacs)
Balance as at April 1, 2020	Amount
Additions during the year	396.83
Finance cost accrued during the year (refer note 34)	330.02
Lease rent concession	32.71
Payment of lease liabilities (interest and principal)	(0.98)
Balance as at March 31, 2021	(145.32)
Additions during the year	75.30
Finance cost accrued during the year (refer note 34)	47.95
Payment of lease liabilities (interest and principal)	(231.79)
Balance as at March 31, 2022	504.72
Current Lease liability (refer note 23)	March 31, 2022
Non-Current Lease Liability (refer note 23)	March 31, 2021
	205.72
	299.00
	504.72
	162.21
	451.05
	613.26

- c) The maturity analysis of lease liabilities are as follows:

Maturity of lease liabilities	
Set out below are the undiscounted potential future rental payments relating to periods:	
Lease obligations	
Not later than one year	March 31, 2022
Later than one year and not later than five years	March 31, 2021
Later than five years	238.66
	317.38
	116.15
Interest expense	
Not later than one year	March 31, 2022
Later than one year and not later than five years	March 31, 2021
Later than five years	32.69
	45.86
	88.92
	45.92
	71.17
	93.28

- d) The weighted average incremental borrowing rate applied to lease liabilities is 8.5%.

- e) Rental expense recorded for short-term leases are as follows:

The following are the amounts recognised in profit or loss:	
Depreciation expense of right-of-use assets	Year ended
Interest expense on lease liabilities	March 31, 2022
Expense relating to short-term leases	March 31, 2021
	288.25
	47.95
	2,125.73
	2,461.93
	195.12
	32.71
	1,793.47
	2,021.30

- f) The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

- g) The Group has received the Covid-19-related rent concessions for lessees amounting to INR 0.98 lacs in previous year and on the basis of practical expedient as per Ind AS 116 "Leases, the same is not considered to be lease modification, hence the income towards rent concession is recognised under other miscellaneous income in "Other Income" note in the statement of profit and loss account.

- h) The Group has applied a single discount rate to a portfolio of leases of a similar assets in similar economic environment with similar end date.

- During the year, the Group has exited from its investment in an associate (partnership firm) i.e Om Sai Pharma Pack on November 30, 2021 at fair value of INR 2,411.60 lacs and accordingly reversed impairment loss booked in earlier years of INR 800 lacs (refer note 43) at a total consideration of INR 2,411.60 lacs. The Group has received INR 1,967.20 lacs and balance INR 444.40 lacs is recoverable in 8 quarterly instalments due on December 2023.

e. Impairment of investments

The Group has performed a detailed analysis to identify indicators of impairment in respect of its investment portfolio considering internal and external factors in accordance with Ind-AS 36 - Impairment of assets. The Group has allocated investments wherever indicators exist to its respective Cash Generating Unit i.e. Pharmaceutical and healthcare products, Real estate and hospitality and performed impairment test to ascertain the recoverable amount. The recoverable amount is determined either based on value in use calculation or net selling price. In respect of pharmaceutical CGU and one of the investments in hospitality CGU, management calculates value in use using a discounted cash flow method. The discounted cash flow calculations uses management assumptions and pre tax cash flow projections based on financial budgets approved by respective entities management covering a 5 to 8 years period. Cash flow projection beyond 5 to 8 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which CGU operates. In respect rest of real estate and hospitality CGU, the recoverable amount is calculated using the Direct Comparison Method. The direct comparison approach involves a comparison of the properties to similar properties that have actually been sold in arms-length distance from properties or are offered for sale in the same region. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market, and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This approach leads to a reasonable estimation of the prevailing price. Given that the comparable instances are located in close proximity to the properties; these instances have been assessed for their locational comparative advantages and disadvantages while arriving at the indicative price assessment for properties. The fair value has been determined by Akhil Kumar and Associates, Government approved valuer. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates are included in level 3. In respect of investment in real estate and hospitality, management has considered their fair value considering the Direct comparison method. Management has determined following assumptions for impairment testing of investments in pharmaceutical CGU as stated below.

Assumption relating to pharmaceutical CGU	March 31, 2022 (%)	March 31, 2021 (%)	Approach used in determining value
Weighted average Cost of capital % (WACC) before tax (discount rate)	11.00-15.37%	11.00-14.00%	It has been determined basis risk free rate of return adjusted for equity risk premium.
Long Term Growth Rate	4.00%-5.00%	4.00%-5.00%	Long term growth rate has been taken basis financial budgets and projections approved by management which is in line with industry growth rate

Management determined budgeted gross margin based on past performance and its expectations of market development. The weighted average growth rates used are consistent with the forecasts included in industry reports. The calculations performed indicate that there is impairment of investments in some investments in real estate sector, hospitality sector and few pharma and pharma packing investments. Management has performed a sensitivity analysis with respect to changes in assumptions for assessment of value-in-use of investments. Based on this analysis, management believes that adequate headroom is available and change in any of above assumption would not cause any material possible change in carrying value of unit's CGU over and above its recoverable amount, other than those already accounted.

Sensitivity analysis of assumptions

The Group has performed sensitivity analysis on the key assumptions by +/- 2% for each of the assumptions used by the valuer and ensured that the valuation is appropriate and there is no further impairment and adequate headroom is available.

9 Non-current Investments

Non-current

(a) Investment measured at fair value through profit or loss (FVTPL), fully paid up

	26,643.20	5,844.27	390.83	409.08	68.04	152.37	33,507.79

- a. Trade receivables represents the amount of consideration in exchange of goods or services transferred to the customers that is unconditional.
- b. The average credit period to domestic customers ranges upto 21 days and to export customers upto 180 days. Our credit terms for government institutions are typically ranging from 90 to 120 days. No interest is charged on trade receivables upto the due date from the date of the Invoice.
- c. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on historical credit loss experience and adjusted for forward looking information.
- d. No trade or other receivables are due from directors or other officers or private companies or partnership firms in which such director is a director or member or partner of the Group either severally or jointly with any other person apart from those mentioned below:

Nextwave (India)
Pathkind Diagnostics Private Limited
Star Infra Developers Private Limited

Notes:

(i) Rights, preferences and restrictions attached to Equity Shares

The Holding Company has only one class of equity shares having a par value of INR 1 per share. Each holder of equity shares is entitled to one vote per share. The Group declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of the Holding Company, holder of equity shares will be entitled to receive remaining assets of the Group after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

(ii) Reconciliation of the number of shares and amount outstanding at the beginning and at the end of the year:

a) Issued, subscribed and fully paid up equity capital

	6,11,517.33	4,68,194.50

	As at March 31, 2022	As at March 31, 2021
21.1 General reserve		
Balance at the beginning of the year	23,774.24	23,774.24
Transferred from retained earnings	-	-
Balance at the end of the year	23,774.24	23,774.24

Nature and purpose of reserve:

Under the erstwhile Companies Act 1956, General Reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Group for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to General Reserve has been withdrawn. However, the amount previously transferred to General Reserve can be utilised only in accordance with provisions of the Companies Act, 2013.

	As at March 31, 2022	As at March 31, 2021
21.2 Securities premium		
Balance at the beginning of the year	4,211.74	4,211.74
Less : Utilised during the year	-	-
Balance at the end of the year	4,211.74	4,211.74

Nature and purpose of reserve:

Securities premium is used to record premium on issue of shares. The reserves can be utilised only for limited purposes in accordance with provisions of the Companies Act, 2013.

	As at March 31, 2022	As at March 31, 2021
21.3 Retained earnings		
Balance at the beginning of the year	5,30,350.82	4,06,545.91
Profit for the year	1,43,347.59	1,26,542.80
Other comprehensive income/(loss) for the year, net of income tax	(89.96)	196.25
Adjustment on account of acquisition of remaining interest in two subsidiary companies from NCI (refer note below)	-	(2,934.14)
Adjustment on account of acquisition/disinvestment in subsidiary companies from NCI	(89.61)	-
Balance at the end of the year	6,73,518.84	5,30,350.82

Nature and purpose of reserve:

During the previous year, The Holding Company had acquired remaining 15% stake in Lifestar Pharma Private Limited and 8% stake in Magnet Labs Private Limited from the non-controlling Interested parties. The difference between the consideration paid and non-controlling interest (NCI) is accounted for as equity in accordance with Ind AS -110 Consolidated Financial Statements.

Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

The amount that can be distributed by the Group as dividends to its equity shareholders, is determined based on the requirements of Companies Act, 2013. Thus, the amounts reported above are not distributable in entirety.

Mankind Pharma Limited**Notes forming part of the consolidated financial statements for the year ended March 31, 2022****All amounts are in INR lacs unless otherwise stated****21.4 Capital reserve**

Balance at the beginning of the year
Add: Adjustment

Balance at the end of the year

As at	As at
March 31, 2022	March 31, 2021
(90,898.16)	(90,898.16)
(90,898.16)	(90,898.16)

The negative capital reserve of INR 90,898.16 lacs includes following:-

a) INR (46,800.14 lacs) being the difference between the consideration paid by the group and the share capital of the transferor entities namely; Relax Pharmaceutical Private Limited, Copmed Pharmaceutical Private Limited, Mediforce Healthcare Private Limited, Medipack innovation private limited being amount of (INR 11,302.20 lacs); (INR 19,186.68 lacs); (INR 5,708.08 lacs); INR 17.16 lacs respectively acquired on April 01, 2017 and Pharmaforce Labs (Partnership firm), Penta latex LLP (a limited liability partnership firm) being amount of (INR 6,885.67 lacs) (INR 3,734.67 lacs) respectively acquired on April 01, 2018, accounted as common control business acquisitions in accordance with Appendix C to Ind AS 103: Business Combination of Entities under Common Control".

b) INR (44,098.02 lacs) being net assets transferred in 2019 in respect of the Group's leasing business to a related party, Mankind Biosys Limited in accordance with the Scheme of Demerger approved by the Hon'ble National Company Law Tribunal on May 18, 2018.

21.5 Foreign currency translation reserve

Balance at the beginning of the year
Exchange differences in translating the financial statements of foreign operations
Balance at the end of the year

755.86	891.41
154.81	(135.55)
910.67	755.86

Nature and purpose of reserve:

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income as described in accounting policy and accumulated in Foreign currency translation reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.

Details of Provision for expected sales return

Movement in provision for expected sales return is as follows:

Balance as at the beginning of the year
Addition during the year
Utilised during the year
Balance as at the end of the year

As at	As at
March 31, 2022	March 31, 2021
18,762.22	18,163.57
17,736.52	12,675.07
(15,840.19)	(12,076.42)
20,658.55	18,762.22

Provision for expected sales return: A provision is recognized for expected sales return on products sold by the Group during the year based on the past experiences of level of return. It is expected that significant level of returns will be incurred in next financial year. Assumptions used to calculate said provision are based on current sales level and current information available about sales return.

Deferred tax assets (net)	4,793.81			4,901.10
Deferred tax charge/(credit) during the year		(241.08)	(28.58)	

Note:

- a. Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and same entity.
- b. The Group has not created deferred tax on impairment loss of non-current financial assets (investments, doubtful capital advances and loans aggregating to INR 8,458.30 lacs as at March 31, 2022 and INR 11,146.87 lacs as at March 31, 2021) as the Group does not expect taxable capital gain in future against which such deferred tax assets can be realised. Had the Group created deferred tax on the same, the profit would have been higher by INR 2,955.67 lacs for the year ended March 31, 2022 and INR 3,895.16 lacs for the year ended March 31, 2021.
- c. During the previous year, the Group has paid dividend to its shareholders for the year ended March 31, 2020. This has resulted in payment of corporate dividend tax (CDT) amounting to INR 6,182.17 lakhs to the taxation authorities. CDT represents additional payment to taxation authorities on behalf of shareholders. Hence CDT paid is charged to equity.
- d. The Group has not created deferred tax assets on the carried forward losses on the following entities. Such business losses can be carried forward for a period of 8 years from the relevant financial year in which such losses are occurred except to two of the subsidiary.
- (I) Lifestar Pharma LLC has federal net operating losses eligible for being carried forward amounting to INR 6701.03 lacs (March 31, 2021 : INR 6768.97 lacs). As per local laws of the country in which subsidiary is incorporated, business losses amounting to INR 6310.66 lacs (March 31, 2021 : INR 3,798.77 lacs) generated in tax years 2018 to 2020 will be carried forward indefinitely for utilization.
- The subsidiary Lifestar Pharma LLC has state carried forward losses amounting to INR 1361.63 lacs (March 31, 2021 : INR 1159.45 lacs) available in various states to reduce future state income taxes. The term of expiry of these business losses varies from state to state.
- (II) Lifestar Pharmaceuticals Private Limited has carried forward business lossess of INR 11.50 lacs (March 31, 2021 : Nil) which can be carried forward for a period of 7 years from the end of relevant financial year as per Nepal Income Tax laws.

(III) Further, in respect of following subsidiaries incorporated in India have carried forward business losses and unabsorbed depreciation eligible for being carried forward and the subsidiaries have not created deferred tax assets on such losses as there is no reasonable certainty of realisation of such assets in foreseeable future.

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference become deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. Based on the history of losses and uncertainty over projections for future taxable income over the periods for which the deferred tax assets are deductible, the management believes it is more likely than not that the deferred tax assets may not be recognized in foreseeable future and accordingly, no deferred tax asset has been recorded.

	As at March 31, 2022	As at March 31, 2021

Trade payables (current)	1,07,639.72	66,695.94
Lease liabilities (current)	205.72	162.21
Other financial liabilities (current)	22,148.90	16,263.85

	Year ended March 31, 2022	Year ended March 31, 2021
29 Revenue from operations		
29.1 Revenue from contracts with customers		
Sale of products	7,77,809.16	6,21,190.77
Sale of services	346.35	252.31
	7,78,155.51	6,21,443.08

(a) Disaggregated revenue information

Set out below is the disaggregation of the Group's revenue from contracts with customers:

Segment

Type of goods/services	Year ended March 31, 2022	Year ended March 31, 2021
Type of goods/services		
Pharmaceutical and healthcare products	7,77,809.16	6,21,190.77
Services Income	346.35	252.31
Total revenue from contracts with customers	7,78,155.51	6,21,443.08
Geographical information		
Within India	7,59,474.79	6,02,853.41
Outside India	18,680.72	18,589.67
Total revenue from contracts with customers	7,78,155.51	6,21,443.08
Timing of revenue recognition		
Goods transferred at a point in time	7,77,809.16	6,21,190.77
Services transferred over the time	346.35	252.31
Total revenue from contracts with customers	7,78,155.51	6,21,443.08

(b) Reconciling the amount of revenue recognised in the statement of profit and loss with the contracted price

Revenue as per contracted price	8,12,325.28	6,48,447.50
Adjustments:		
Sales return	(17,736.52)	(12,675.07)
Discount	(11,188.04)	(12,500.85)
Scheme Cost	(5,245.21)	(1,828.50)
Revenue from contracts with customers	7,78,155.51	6,21,443.08

(c) Contract balances

	As at March 31, 2022	As at March 31, 2021	As at April 1, 2020
Trade receivables (refer note 15)	38,816.60	33,061.13	53,109.20
Contract liabilities (refer note 26)	1,654.36	1,249.34	408.88

The average credit period to domestic customers ranges upto 21 days and to export customers upto 180 days. Our credit terms for government institutions are typically ranging from 90 to 120 days. No interest is charged on trade receivables upto the due date from the date of the invoice.

Contract liabilities consist of short-term advances received against supply of goods to customer. Such advances are adjusted against supply of goods within a range of 3 months from the reporting date and the revenue is recognised out of the contract liabilities.

(d) Performance obligations

Sales of goods: Performance obligation is satisfied when control of goods is transferred to the customer, generally on delivery of the goods.

Sales of services: The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer. In respect of these services, payment is generally due upon completion of services.

- Remeasurement of the defined benefit plan	38.50	(27.83)
- Share of other comprehensive income of associates and joint ventures	0.10	(0.75)
- Change in the fair value of equity Investments at FVTOCI	(8.82)	-
Total income tax expense recognised in other comprehensive income	29.78	(28.58)

Note: Effective tax rate has been calculated on profit before tax. 26.42% 23.56%

During the year, on February 22, 2022 the Supreme Court of India passed an order that freebies provided to medical practitioners which were prohibited by law, was no less a prohibition on the part of the entity that is providing those freebies. The Group has evaluated its sales promotion expenses and also taken an expert opinion, basis which, it believes that the tax provisions accrued in the books in current year adequately cover for any contingency. However, given the nature of the judgement, the ultimate outcome is not reasonably ascertainable at this stage.

38 Contingent liabilities and commitments (to the extent not provided for)

A Contingent liabilities

(a) Claims against the Group not acknowledged as debts

	As at March 31, 2022	As at March 31, 2021
(i) Sales tax Including Goods and Service Tax (Paid under protest INR 12.87 lacs (March 31, 2021 : INR Nil))	291.59	16.36
(ii) Income tax demands on various matters (Paid under protest INR 1,281.60 lacs (March 31, 2021 : INR 1,281.60 lacs))	4,935.23	2,853.40
(iii) Commercial taxes	18.14	-
(b) Contingent In respect of Input credit availed under GST (refer note (iii) below)	804.50	-

(c) Other Litigations

There are some litigations filed against the Holding Company and some of its subsidiaries on account of design, trademarks and patent infringements, labour matters etc. relating to conduct of its business. These cases are at various stage of proceedings and the extent of claim or damages is indeterminate at this stage. The Group is contesting these cases and based on views of internal legal counsel and in consultation with external legal counsel representing the Group, it believes there is no liability which would devolve over the Group in respect of such cases and believes its position will be upheld in the jurisdictional authorities as at close of respective financial year. The Group has also filed certain cases in nature of recovery suit, cases under Section 138 of the Negotiable Instrument Act, 1881, trademark infringement etc. The Group is pursuing these cases and have made adequate accrual for allowance for doubtful debts in respect of such cases, wherever considered necessary.

Notes:

- Claims / suits filed against the Group not acknowledged as debts which represents various legal cases filed against the Group. The Group has disclaimed the liability and defending the action. The Group has been advised by its legal counsel that its position is likely to be upheld in the litigation process and accordingly no provision for any liability has been made in the financial statements.
- The Group is contesting the demands of income tax and sales tax, and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Group's financial position and results of operations.
- Contingencies in respect of input credit availed under GST relates to input availed by the Group in respect of earlier years paid to GST authorities during the year consequent to audit by the office of the commissioner central GST audit, Gurugram which is subject to assessment. The Group is pursuing these and as advised by its legal counsel believes its position would be accepted by the authorities and accordingly, no provision is required to be accrued in the financial statements.

(b) Bank Guarantees issued by bankers	-	-	175.85
(c) Guarantees furnished to banks in respect of Letters of credits	1,000.96	2,207.42	14.66

Based on consultation with the Group's consultants, and in the opinion of the management, the Group does not expect any outflow of economic resources in respect of above claims and therefore no provision is considered necessary.

B Commitments

	As at March 31, 2022	As at March 31, 2021
(i) Estimated amount of contracts remaining to be executed on capital account and not provided for (Net of advances of March 31, 2022: INR 5,864.27 lacs; March 31, 2021: INR 7,794.58 lacs) excluding capital advances fully provided (refer note 13)	14,678.95	14,030.29

Disclosures pursuant to Ind AS - 19 "Employee Benefits" (notified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act) are given below :

a. Contribution to Defined Contribution Plan, recognised as expense for the year is as under:

The Group's contribution to the Employees Provident Fund is deposited with the Regional Provident Fund Commissioner for qualifying employees. Under the scheme, the Group is required to contribute a specified percentage of payroll cost to the retirement benefit plan to fund the benefits.

During the year, the Group has recognised INR 7,358.54 lacs (March 31, 2021: INR 5,871.5 lacs) for Employer's contributions to the Provident Fund, Employee State Insurance, National Pension Scheme and others contribution in the Consolidated statements of profit and loss. The contributions payable to the plan by the Group is at the rate specified in rules to the scheme.

Hon'ble Supreme Court of India vide its judgement dated February 28, 2019 on Provident Fund on the inclusion of allowances for the purpose of PF contribution as well as its applicability of effective date. Subsequently, the Holding Company vide assessment letter no. 28212 dated 04 August 2020 received from Employees Provident Fund Organisation wherein the provident fund department has completed their assessment for FY 2015-16 to FY 2019-20. Hence, the Group is of the view, that there is no further liability on account of the Judgement.

b. Defined benefit plan

In accordance with the Payment of Gratuity Act of 1972, the group contributes to a defined benefit plan ("the Gratuity Plan"). The gratuity plan provides a lump sum payment to vested employees at retirement, withdrawal, resignation and death of an employee. The gratuity liability is calculated on the basis of fifteen days salary (i.e. last drawn basic salary) for each completed year of service subject to completion of four years and two forty days in service.

Based on actuarial valuations conducted as at year end, a provision is recognised in full for the benefit obligation over and above the funds held in the Gratuity Plan. In case where there is no Gratuity Plan, full provision is recognised in the consolidated balance sheet.

Mankind Pharma Limited and its subsidiaries including Magnet Labs Private Limited, Lifestar Pharma Private Limited, Medipack Innovations Private Limited, Relax Pharmaceuticals Private Limited, Copmed Pharmaceuticals Private Limited and Mediforce Healthcare Private Limited have constituted their respective trust recognized by Income Tax Authorities for gratuity to employees. Contributions to the trust are funded with Life Insurance Corporation ("LIC") of India and Bajaj Allianz Life Insurance Company Limited. The liability in respect of other entities within the group are unfunded.

i. Risks associated with Plan Provisions

Risks associated with the plan provisions are actuarial risks. These risks are:- (i) Investment risk, (ii) Interest risk (discount rate risk), (iii) mortality risk and (iv) salary growth risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.
Interest risk (discount rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability.
Mortality risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2006-08) ultimate table. A change in mortality rate will have a bearing on the plan's liability.
Salary growth risk	The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March, 31 2022. The present value of defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

ii. Principal actuarial assumptions:

Principle actuarial assumption used to determine the present value of the benefit obligation are as follows:

S. No.	Particulars	Refer note below	As at March 31, 2022	As at March 31, 2021
i.	Discount rate (p.a.)	1	6.01%-7.26%	4.93%-6.90%
ii.	Rate of return on assets (p.a.)	2	5.95%-6.45%	6.10%-6.45%
iii.	Salary escalation rate (p.a.) -Office Staff	3	5.00%-12.00%	5.00%-12.00%
iv.	Salary escalation rate (p.a.) -Field Staff	3	5.00%-6.00%	5.50%

Notes

- The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of obligations.
- The expected return is based on the expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations.
- The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

iii. Demographic assumptions:

	As at March 31, 2022	As at March 31, 2021
1 Retirement age	58-60 years	58-60 years
2 Mortality rate	(100% of IALM 12-14)	(100% of IALM 12-14)
3 Average outstanding service of employee up to retirement (In years)	5.31-28.48	5.27-28.90
4 Attrition rate	20%-33% (Field staff)	20%-34% (Field staff)
- Service up to 5 years (Field Staff / Office Staff)	17%-22% - Office staff	20% - Office staff
- Service above 5 Years (Field Staff / Office Staff)	'8%-15% (Field staff)	'10%-15% (Field staff)
and	'3%-7%' - Office staff	'5%-7%' - Office staff
- Age up to 30 Years	5.00-29.00%	5.00-30.00%
- Age from 31 to 44 years	2.90%-22.00%	3.06%-30.00%
- Age above 44 years	0%-17.00%	0.57%-30.00%

The following tables set out the funded and unfunded status of the gratuity plan and amounts recognised in the Group's financial statements:

S. No. Particulars	Funded Plan		Unfunded Plan	
	Year ended March 31, 2022	Year ended March 31, 2021	Year ended March 31, 2022	Year ended March 31, 2021
a. Amounts recognised in the Consolidated statement of Profit and Loss in respect of these defined benefits plans are as follows:				
Current service cost	1,191.29	1,085.41	88.16	80.08
Past service cost	(18.06)	-	-	-
Net interest expenses	411.90	364.51	18.23	13.84
Components of defined benefit costs recognised in Consolidated Statement of Profit and Loss	1,585.13	1,449.92	106.39	93.92

b. Remeasurement (gain)/ loss recognised in other comprehensive income :

Actuarial (gain)/loss due to change in demographic assumptions	(70.30)	5.71	(3.10)	(15.97)
Actuarial (gain)/loss due to change in financial assumptions	(584.65)	18.94	(8.48)	39.06
Actuarial (gain)/loss due to change in experience variance	591.56	(211.60)	1.45	(27.01)
Actuarial (gain)/loss due to change in plan asset	188.47	(21.47)	-	-
Component of defined benefit costs recognised in other comprehensive income	125.08	(208.42)	(10.13)	(3.92)

The current service cost and the net interest expense for the year are included in the 'Employee benefits expense' in the Consolidated financial statement of Profit and Loss. The remeasurement of the net defined benefit liability is included in the other comprehensive income.

c. The amount included in the Consolidated Balance Sheet arising from the entity's obligation in respect of its defined benefits plans as follows:

	As at March 31, 2022	As at March 31, 2021
Present value of defined benefit obligation	10,266.21	9,483.64
Less: Fair value of plan assets	(2,182.36)	(2,218.10)
Funded status surplus/(deficit)	(8,083.85)	(7,265.54)
Current portion (refer note 24)	83.42	41.11
Non-current portion (refer note 24)	8,000.43	7,224.43

d. Movement in the fair value of the defined benefit obligation:

	Funded Plan		Unfunded Plan	
	Year ended March 31, 2022	Year ended March 31, 2021	Year ended March 31, 2022	Year ended March 31, 2021
Opening defined benefit obligation	9,199.51	8,218.52	284.13	203.70
Current service cost	1,191.29	1,085.41	88.16	80.08
Past Service Cost	(18.06)	-	-	-
Interest cost	553.25	499.84	18.23	13.84
Actuarial (gain)/loss on obligation	(63.41)	(186.95)	(10.13)	(3.92)
Acquisition/Divestiture	(0.36)	-	-	-
Benefits paid	(966.71)	(417.31)	(9.69)	(9.57)
Closing defined benefit obligations	9,895.51	9,199.51	370.70	284.13

e. Movement in the fair value of the plan assets are as follows:

Opening fair value of plan assets	2,218.10	2,097.75	-	-
Actual Income on Plan Asset	16.31	19.74	-	-
Fund Management Charges (FMC)	(12.11)	(18.87)	-	-
Employer's contributions received	975.35	379.99	-	-
Benefits paid	(966.71)	(417.31)	-	-
Expected return on plan assets	141.34	135.33	-	-
Actuarial gain / (loss)	(188.47)	21.47	-	-
Withdrawal against last year payment made through provisions	(1.19)	-	-	-
Received from LIC against payment made by provision	(0.26)	-	-	-
Closing fair value of plan assets	2,182.36	2,218.10	-	-

f. Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation (DBO) are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	As at March 31, 2022		As at March 31, 2021	
	Decrease in DBO	Increase in DBO	Decrease in DBO	Increase in DBO
Discount Rate (-/+0.5%) (% change compared to base due to sensitivity)	487.55	(439.34)	368.91	(341.94)
Salary Growth Rate (-/+0.5%) (% change compared to base due to sensitivity)	(417.14)	458.33	(321.26)	339.58

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit liability recognised in the Balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

g. The expected maturity analysis of discounted defined benefit obligation is as follows:

Expected cash flows over the next	As at March 31, 2022	As at March 31, 2021
Within the next 12 months	964.60	963.93
Between 2 and 5 years	3,387.08	3,404.33
More than 5 years	4,310.35	4,415.30
h. Expected Company contributions for the next year	1,273.89	1,019.67

Notes

- The discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of obligations.
- The compensated absences are unfunded.
- The estimates of future salary increase considered takes into account the inflation, seniority, promotion and other relevant factors.
- The average duration of the defined benefit plan obligation at the end of the reporting period is 8.48 years (March 31, 2021: 7.39 years).

41 Capital Management

For the purposes of Group's capital management, Capital includes equity attributable to the equity holders of the Group and all other equity reserves. The primary objective of the Group's capital management is to safeguard its ability to continue as going concern and to ensure that it maintains an efficient capital structure and maximize shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022 and March 31, 2021 except for budgeting for cash flow projections considering the impact of ongoing pandemic COVID - 19. Capital gearing ratio is net debt divided by total capital plus net debt and Net debt is calculated as loans and borrowings less cash and cash equivalent. The Group policy is to keep the gearing ratio below 10%.

The following table summarizes the capital of the Group:

Particulars	As at March 31, 2022	As at March 31, 2021
Debt including lease liability (a)	87,307.44	24,065.84
Cash and cash equivalents (Note 16) (b)	30,253.47	16,718.20
Net debt (c = (a-b))	57,053.97	7,347.64
Total Equity / Net Worth	6,15,523.21	4,72,200.38
Capital and Net Debt	6,72,577.18	4,79,548.02
Gearing ratio (Net Debt/Capital and Net Debt)	8.48%	1.53%

42 Financial Instruments

A Financial risk management objective and policies

The Group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments, trade and other receivables, and cash and cash equivalents that are derived directly from its operations.

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group is exposed to market risk, credit risk and liquidity risk.

The Group's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Group are accountable to the Board of Directors and Audit Committee. This process provides assurance to Group's senior management that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Group policies and Group risk objective.

Financial assets and liabilities:

The accounting classification of each category of financial Instruments, and their carrying amounts, are set out below:

March 31, 2022	FVTPL	FVTOCI	Amortised Cost	Total carrying value	Total fair value
Financial assets					
Investments	90,147.43	4,025.25	-	94,172.68	94,172.68
Trade receivables	-	-	38,816.60	38,816.60	38,816.60
Cash and cash equivalents	-	-	30,253.47	30,253.47	30,253.47
Other bank balances	-	-	10,340.68	10,340.68	10,340.68

Other financial liabilities	-	-	16,363.85	16,363.85	16,363.85
Total	-	-	1,07,125.63	1,07,125.63	1,07,125.63

B Fair value measurements

The management assessed that cash and cash equivalents, trade receivables, trade payables, investment in mutual fund and other investments, other current financial assets and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the other financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1) The fair value of unquoted instruments, loans from banks, other non-current financial assets and non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

2) The fair values of the Group's interest-bearing borrowings are determined by using effective interest rate (EIR) method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2022 was assessed to be insignificant.

3) Long-term receivables/payables are evaluated by the Group based on parameters such as interest rates, risk factors, individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

4) Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

	Fair value as at		Fair value hierarchy (level)	Valuation techniques and key inputs
	As at March 31, 2022	As at March 31, 2021		
Financial Assets				
Investments in mutual funds	87,446.18	1,30,617.41	1	See note i below
Investments - other	2,701.25	1.25	3	See note ii below
Trade receivables	38,816.60	33,061.13	3	See note ii below
Cash and cash equivalents	30,253.47	16,718.20	1	
Other bank balances	10,340.68	53,355.98	1	
Loans	122.32	1,848.57	3	See note ii below
Other financial assets	3,686.36	3,274.17	3	See note ii below
Investments - other	4,025.25	4,000.00	3	See note ii below
Total Financial Assets	1,77,392.11	2,42,876.71		
Financial Liabilities				
Borrowings	86,802.72	23,452.58	3	See note ii below
Lease liabilities	504.72	613.26	3	See note ii below
Trade payables	1,07,639.72	66,695.94	3	See note ii below
Other financial liabilities	22,148.90	16,363.85	3	See note ii below
Total Financial Liabilities	2,17,096.06	1,07,125.63		

i) Investment in mutual funds traded in active markets are determined by reference to quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual funds declared by mutual fund house.

ii) In the absence of observable inputs to measure fair value the assets and liabilities have been classified as level 3. The Group has not given further disclosures since the amount involved is not material.

The management considers that the carrying amounts of financial assets and financial liabilities having short term maturities recognised in the financial statement approximates their fair values.

Risk management objectives

Risk management framework

The Group has exposure to the following risks arising from financial instruments:

- Market risk
- Liquidity risk
- Credit risk

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the Group's activities. The Group, through its training, standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Financial risk

The Group's financial risk policies comprise liquidity, currency, interest rate and counterparty risk. The Group does not engage in speculative treasury activity but seeks to manage risk and optimize interest through proven financial instruments.

a) Credit Risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Possible credit risk

Credit risk related to trade receivables and loans

Credit risk management

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The loans advanced by the Group carries interest and are granted after evaluating the purpose and credit worthiness of the counter party. The loan advanced are backed by personal guarantee of the director of the counter party.

Moreover, given the diverse nature of the Group's businesses trade receivables are spread over a number of customers with no significant concentration of credit risk. No single customer accounted for 10.0% or more of trade receivable on a % basis in any of the years indicated.

Receivables are deemed to be past due or impaired with reference to the Group's normal terms and conditions of business. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. Receivables that are classified as 'past due' in the above tables are those that have not been settled within the terms and conditions that have been agreed with that customer.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Credit risk related to bank balances

Group holds bank balances with reputed and creditworthy banking institution within the approved exposures limit of each bank. None of the Group's cash equivalents, including time deposits with banks, are past due or impaired. Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Group's maximum exposure to credit risk for the components of the balance sheet at 31 March 2022 is the carrying amounts. The Group's maximum exposure relating to financial instrument is noted in liquidity table below.

Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Group.

	As at March 31, 2022	As at March 31, 2021
Financial assets for which allowance is measured using 12 months Expected Credit Loss Method (ECL)		
Cash and cash equivalents	30,253.47	16,718.20
Other bank balances	10,340.68	53,355.98
Loans	122.32	1,848.57
Other financial assets	3,686.36	3,274.17
Financial assets for which allowance is measured using Life time Expected Credit Loss Method (ECL)		
Trade receivables	38,816.60	33,061.13

Credit risk related to investments

The Group has made Investments in highly liquid public sector mutual funds to meet their short term liquidity objectives. The Group analyses the credit worthiness of the party before investing their funds.

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Other credit risk

The Group is exposed to credit risk in relation to financial guarantees given on behalf of group companies.

b) Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at reasonable price. The Group's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the Group's liquidity position through rolling forecasts on the basis of expected cash flows. The Group assessed the concentration of risk with respect to its debt and concluded it to be low. The Group remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet. The maturity profile of the Group's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the Group.

Other financial liabilities	16,263.85	100.00	16,363.85
Total	1,01,364.27	7,094.76	1,08,459.04

c) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments, and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2022 and March 31, 2021.

Interest rate risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The exposure of the Group's fixed rate financial liabilities to interest rate risk is as follows:

The exposure of the Group's financial liabilities to interest rate risk is as follows:

	As at	Closing balance	Impact on profit or loss	
			1% increase	1% decrease
Borrowings (Impact on profit and loss)	March 31, 2022	86,802.72	(876.42)	876.42
Borrowings (Impact on profit and loss)	March 31, 2021	23,452.58	(245.76)	245.76

Price risk

The Group manages surplus funds through investments in mutual fund plans. The NAV declared by Asset Management Companies (AMC) has generally remained constant on the mutual fund plans taken by the Group. However, if the NAV of the fund is increased/decreased by 5%, the sensitivity analysis has been mentioned below:

	As at	Closing balance	Impact on profit or loss	
			5% increase	5% decrease
Investments in mutual funds (Impact on profit and loss)	March 31, 2022	87,446.18	4,372.31	(4,372.31)
Investments in mutual funds (Impact on profit and loss)	March 31, 2021	1,30,617.41	6,530.87	(6,530.87)

Commodity Price Risk

Exposure to market risk with respect to commodity prices primarily arises from the Group's purchases and sales of active pharmaceutical ingredients, including the raw material components for such active pharmaceutical ingredients. These are commodity products, whose prices may fluctuate significantly over short periods of time. The prices of the Group's raw materials generally fluctuate in line with commodity cycles, although the prices of raw materials used in the Group's active pharmaceutical ingredients business are generally more volatile. Cost of raw materials forms the largest portion of the Group's cost of revenues. Commodity price risk exposure is evaluated and managed through operating procedures and sourcing policies. As of March 31, 2022, the Group had not entered into any material derivative contracts to hedge exposure to fluctuations in commodity prices.

Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in foreign currency). Foreign currency exchange rate exposure is partly balanced by purchasing of goods from the respective countries. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Foreign currency risk sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, JPY, AED, NPR & SGD exchange rates, with all other variables held constant. The impact on the Group profit before tax and equity is due to changes in the fair value of monetary assets and liabilities. Foreign currency exposures recognised by the Group that have not been hedged by a derivative instrument or otherwise are as under:

		March 31, 2022		Impact on profit before tax and equity	
Nature	Currency	Foreign Currency	Indian Rupees	1% increase	1% decrease
		In Lacs.	In Lacs.	In Lacs.	In Lacs.

Sheetal Arora	732.99	732.99
	2,617.82	2,617.82

Note:

- (i) The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free except for the loans given which carry interest at arms length. The settlement for these balances occurs in cash. There have been no guarantees provided or received for any related party receivables or payables other than disclosed above. Further, the Group has not recorded any impairment of receivables relating to amounts owed by related parties other than those disclosed above. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

(This space has been left blank intentionally)

44 Segment Information**44.1 Description of Segment and principal activities**

As per Ind AS-108, "Operating Segment" (specified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act) the Group's chief operating decision maker, i.e. Managing Director ('CODM') has identified pharmaceuticals and other related products as the reportable segments. Since the Group is having only one reportable segment hence disclosure requirement as per Ind AS 108 is not applicable.

44.2 Geographical Information

53 Business combinations

Acquisitions during the year ended 31 March 2022

Acquisition of Mankind Life Sciences Private Limited

On September 06, 2021, the Group acquired 100% of the voting shares of Mankind Life Sciences Private Limited, entity based in India and is engaged in trading of pharmaceutical and consumer healthcare products.

Acquisition of Applify Infotech LLP

On October 01, 2021, the Group acquired 100% share in Applify Infotech LLP, entity based in India and is engaged in providing IT enabled services. The Group acquired Applify Infotech LLP because it significantly enlarges the groups capabilities with respect to its IT infrastructure specifically in relation to development of certain propriety applications for tapping into the group's endeavour to increase its footprint in the growing healthcare online market place.

Assets acquired and liabilities assumed

a) The fair values of the identifiable assets and liabilities of Mankind Life Sciences Private Limited and Applify Infotech LLP as at the date of acquisition were:

Particulars	Fair value recognised on acquisition	
	Applify Infotech LLP	Mankind Life Sciences Private Limited
Assets		
Cash & cash equivalents	27.16	3.85
Other current assets	58.00	-
	85.16	3.85
Liabilities		
Trade payables	54.51	0.15
Other current liabilities	4.78	2.70
	59.29	2.85
Total identifiable net assets at fair value	25.87	1.00
Goodwill/ Capital reserve arising on acquisition		
Purchase consideration transferred	25.87	1.00
b) Fair Value of consideration paid		
Cash & cash equivalents	25.87	1.00
c) Purchase consideration – cash flow		
Outflow of cash to acquire subsidiaries, net of cash acquired		
Cash consideration	25.87	1.00
Less: Balances acquired		
Cash	27.16	3.85
Net inflow of cash – investing activities	1.29	2.85

d) Revenue and profit/ (loss) contribution

The acquired business contributed revenues and profits to the group for the period 31 March 2022 as follows:

Revenue		276.06
Profit / (loss)	(1.94)	(318.33)

e) If the acquisitions had occurred on April 01, 2021, consolidated pro-forma revenue and profit/(loss) for the year ended March 31, 2022. These amounts have been calculated using the subsidiary's results and adjusting them for:

Revenue		276.06
Profit / (loss)	(3.01)	(318.63)

54 During the year, the Group has capitalised following preoperative directly relatable to the cost of property, plant and equipment being expenses related to projects and developments, trial run. Consequently, expenses disclosed under the respective heads are net of amounts capitalised by the Group.

	Year ended March 31, 2022	Year ended March 31, 2021
Cost of materials consumed	61.85	5.67
Employee benefits expense	35.54	114.61
Other expenses	107.33	-
	204.72	120.28

55 The Group has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income- tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Group is in the process of updating the documentation for the transactions covered under transfer pricing regulations entered into with the associated enterprises during the year and expects such records to be in existence latest by such date as required under the law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

56 The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Group will assess the impact of the Code when it come into effect and will record any related impact in the period the Code becomes effective. Based on a preliminary assessment, the Group believes the impact of the change will not be significant.

57 Other Information

(i) The Group has not traded or invested in Crypto currency or Virtual Currency during the financial year

(ii) The Group has not advanced or loaned or invested funds to any other person or entity, including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
